DETAILED ACTION

Claim Rejections - 35 USC § 112

1. Claims 1-12 and 15-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 is vague. Line 3 appears to recite a trademark compound – Barnox. Generic terminology should be inserted to define the trademark compound since the composition of a trademark compound is subject to change while its name can stay the same. Line 3 also recites the acronym PET. Generic terminology should also be used to define these acronyms to clearly define these materials. Applicants amendment of claim 1 to define PET as “polyvinylchloride” is confusing since PVC is actually polyvinylchloride, not PET.

Claim 3 is vague because it recites the acronym PVDF. Generic terminology should also be used to define these acronyms to clearly define these materials. Do Applicants really want to say “PPVDF” as now recited in claim 3? The extra “P” appears to be a typo?

Claim 18 is vague. In line 1, the phrase “an prion” should be -- a prion --.

Conclusion

2. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1641

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
